

USDOE Performance Evaluation Programs: MAPEP and QAP

The DOE Mixed-Analyte Performance Evaluation Program (MAPEP) and Quality Assurance Program (QAP) Workshop is an opportunity for the participating laboratories to interact with the programs' coordinators and technical experts. Presentations on the DOE's National Analytical Management Program, DOE Reference Labs Traceability to NIST, and participation in MAPEP and QAP by international laboratories will be made. Program coordinators, technical experts, and the audience will discuss future needs, problems, and other items of interest related to MAPEP and QAP.

1:30 PM	Overview NAMP	Stan Morton/Lea Ekman
2:00 PM	International Labs: Importance of MAPEP & QAP to International Problems at the Current Time	Jon Broadway
2:30 PM	DOE Reference Labs Radiological Traceability to NIST	Dave McCurdy
3:00 PM	Application of MAPEP and QAP By the Field Offices for Assessing Labs and Contracts	Mark Minteer
3:15 PM	Break	
3:45 PM	QAP Overview and Review Discussion	Pam Greenlaw
4:30 PM	MAPEP Overview and Review Discussion	Guy Marlette
