

Abstract for Presentation to the  
47th Annual Conference on Bioassay, Analytical and Environmental  
Radiochemistry  
Honolulu, Hawaii  
November 3 - 8, 2001

THROUGH THE EYES OF AN AUDITOR

Virgene Ideker

Manager, Analytical Services Division  
Rocky Flats Closure Site

The Department of Energy has implemented the Environmental Management Consolidated Audit Program to reduce the number of audits to which a lab is subjected on an annual basis. This presentation will delineate common problems observed at radiochemistry and bioassay laboratories and good practices which might improve laboratory performance. Additional information will include observations relating to radiation protection at laboratories in possession of a radioactive material license.
