General Information

Document Type: Pre-solicitation

Solicitation Number: Pending

Title: 115 kV Electrical Substation

Response Date: May 31, 2015

Classification Code: Y, 61

Set Aside: N/A

NAICS: 237130

Contracting Office Address:

Department of Energy, Los Alamos National Laboratory (DOE Contractor), PO Box 1663 MS D442, Los Alamos, NM 87545.

Description: Los Alamos National Laboratory (LANL) is planning to construct a new 115 kV electrical substation starting in January 2016. LANL plans to issue a Request for Proposal to qualified Design-Build firms in July 2015. Project includes the design and construction of the new substation, design and installation of 13.8 kV ductbank, and design and installation of related 115 kV transmission line re-routing.
