

Help local children get new shoes

February 1, 2013

Local children in need of new shoes are getting help this winter from the LANL Laces program, currently working with school districts in Rio Arriba, Santa Fe, Las Vegas, Los Alamos and Taos counties, as well as some area tribal schools, to provide more than 330 elementary children with new sneakers or loafers within the next month.

Support for this program comes from contributions by Lab employees, Cray, Inc. and others.

To help the program assist more children, consider a donation to the LANL Laces program. You may send a check to: Treasury Cashiers Office c/o LANL Laces CFO-TPT, Mail Stop P231, Los Alamos National Laboratory, Los Alamos, NM 87545. Checks should be made out to "LANL Cashiers Office, LANL Laces."

For more information, contact Ed Vigil with the Lab's Community Programs Office, (505) 664-4400.
