

Postdoctoral Program

Issue No. 80

Program Coordinator

Name Mary A. W With

Phone # +1 505 665 4061

Program Description:

The Postdoctoral (Postdoc) Program provides significant benefit to both the postdocs and the Laboratory. Among its benefits are maintaining the scientific & technical vitality of the Lab and strengthening our national scientific and technical capabilities, providing postdocs with the opportunity to work in a technically rich research and development environment, and broadening the Lab's contact with the external scientific community.

Primary Outcomes:

Future scientific workforce of the future either at LANL or elsewhere in Academia, Industry, Government Institutions, etc.

Areas Served:

Other;
