

For your calendar

March 1, 2018

March 6, 13, 20, 27: TED Talk Tuesday

Every Tuesday at noon, bring your lunch to ProjectY, watch a TED talk, and discuss. See each week's topic [here](#).

March 8: Santa Fe Chamber Orientation

The Santa Fe Chamber of Commerce is hosting a [breakfast](#) for entrepreneurs, small business owners, local managers or other Santa Feans interested in finding out how joining the chamber can help grow their business and network.

March 8: Raspberry Pi Club

Stop by the [Raspberry Pi club](#) at Los Alamos Makers to learn how small affordable Raspberry Pi computers can help teach the basic teachings of computer science. People with all levels of experience are welcome.

March 10: Scientist in the Spotlight

Join materials scientist Bev Aikin and aquatic biology expert Jane Clements at the [Bradbury Science Museum](#) as they talk about how materials are manipulated and what might be living in the nearest puddle or pond.

March 12: Help Me with Social Media

Project Y and the Small Business Development Center in Los Alamos host a [workshop](#) to help small businesses develop their digital media and social media skills.

March 12: Deadline for Venture Acceleration Fund applications

[Applications](#) from Northern New Mexican technology and manufacturing firms close March 12 for 2018 awards from the Venture Acceleration Fund (VAF).

March 13: Laboratory 75th Anniversary Celebration

The Bradbury Science Museum hosts a [celebration](#) to mark the 75th anniversary of the founding of Los Alamos National Laboratory. The new Laboratory Director Terry Wallace will say a few words, and the Bradbury Science Museum Association will be selling official apparel sporting the new anniversary logo, with the proceeds going to STEM education initiatives.

March 19: Science On Tap: Energy to explore deep space

The UnQuarked Wine Room in Los Alamos hosts this [informal talk](#) from the Laboratory's Patrick McClure about his team's work developing a very small and simple nuclear reactor that NASA hopes can be used to power space exploration where solar power isn't feasible.

March 21: 3rd Annual Northern New Mexico Expo

Come learn about the degrees and courses offered at Northern New Mexico College. [The Expo](#) will also offer hands-on STEM activities and a job fair.

March 22: Northern New Mexico Kids Count Conference

NM Voices for Children and other partners are coming together for the [Northern New Mexico Kids Count](#) conference, focused on starting conversations about improving the well-being of children.

March 23: Twilight Hike at Cerrillos Hills State Park

Experience a sunset splash of color and watch the moonrise on this guided hike at [Cerrillos Hills State Park](#) off the Turquoise Trail north of Madrid.

March 28: SBIR/STTR Proposal Development Working Session

If you are working on a Small Business Innovation Research (SBIR) or Small Business Technology Transfer (STTR) proposal, join the NM FAST team at this [session at Project Y](#) for some one-to-one feedback and advice.
