Los Alamos Dynamics
Summer School Program 2014

**Student:** Jermaine Chambers

**Bio:** Jermaine Chambers is currently a junior at Prairie View A&M University. He is currently pursuing a B.S. in Mechanical Engineering. During the school year, he works as a research assistant at the Thermal Science Research Center at Prairie View A&M University with Professor Ronald Boyd. His research includes model development and mutual verification of high heat flux removal applications. Jermaine is an elected board member of the Society of Biological Engineers and a member of National Society of Black Engineers. In the future, Jermaine plans to study Biomechanical Engineering in graduate school. When not engaging in his studies, he enjoys working out, basketball, football, and video games.
