Student: Greg Naranjo

Bio: Gregory M. Naranjo is currently a second year graduate student at the University of New Mexico in pursuit of a Masters in Mechanical Engineering, with an emphasis on fluid mechanics and applied thermodynamics. For his master’s project, he has spent time helping design and test a two-dimensional, super-sonic, DeLaval nozzle laboratory apparatus for the mechanical engineering department at UNM. In his spare time, he enjoys exercising, various outdoor activities such as camping and fishing, as well as playing baseball and basketball.
